# WHAT PLANT JUICE DID FOR MRS. CRONE UID WIDDED

San Antonio Lady Who Has Warm Praise For Greatest Tonic of the Age.

est Tonic of the Age.

Mrs. M. J. Crone, residing at 335 Indiana Street, San Antonio, is now a firm friend and advocate of Plant Julice. She has found by experience that it is a wenderful tolic and specific for various alliments so common to city people. For seventeen years she has been a sufferer with kidney trouble and for several years with indigestion. In all of that time she had tried almost every remedy that come to her notice without getting relief.

"One bottle of Plant Julice has done me more good than all the medicine I have ever taken," she said, "I feel so much better in every way, and all of the old froubles which have made me more or less an invalid for years have passed. I feel a sense of gratitinde to this splendid remedy, or rather to those who have put it on the market, and it is for this reason that I recommend it to others. I am sure that it will help them if they have any stomach or kidney trouble. My ease was a very bad one and it has done wonders for me."

Por the restoration of nerve force, for the relief and cure of all stomath, kidney, liver and blood allments Plant Julice is the greatest tonic of the ago. In almost incredible time it restores vitality, puts new life, and energy into you. No remedy has yet been produced that so quickly clears the liver and eradicates biliousness and indirestions. Utile acid is dissolved, bringing relief for those who suffer with rheuvatism and kidney troubles. For sale at Kelly & Pollard's.—Advertisement.

MANY YEARS' TEST OF

For several years a large number of voluntarily written testimonisis from persons who recovered from Lung Trouble have been received by the makers of Eckman's Alterative, a remedy for the treatment of Throat and Lang Troubles. Surely plenty of time to demonstrate its insting value. You can write to any of them for confirmation. Here is one:

### HOBAN FARMER WINS CANTALOUPE PRIZE

Pecos, Tex., July 15-F. J. Billingslea, farmer near Hoban, brought in the first crais of cuntaloupes grown by a member of the Peros Cantaloupe Growers' association, and won the cush prize ers' association, and won the cash prize of \$10 for his industry. Dr. J. L. Williams came in from his farm a few miles west of town, with the second crate, and later Mr. Billingslea sent in three crates more. There are about 50 refrigerator cars waiting for the opening of the heavy shipping, and, from the outlook at present, the last year's experience, the preparation made is fully justified. The Pecos Light & Ice company has the contract for the icing of the cars out of Pecos.

The hot weather of the last week, it is said, was just what the crop needed.

Deming, N. M., July 15.—The heaviest rain known in the Mimbres valley for five years fell between 2 and 4 oclock. The gage at the S. P. station read 1.38 inches. Reports from all over the county indicate that the downpour was general over the whole county. The stock ranges were sorely needing rain. The grass was barely started three months ago by light showers, and the drouth had parched it and the range was becoming very short. This general soaking rain is worth thousands of dollars to the cattlemen of the county. The farmers were also lucky in that the rain just followed the second cutting of alfalfa, which had been baled and marketen or stored. Raw Material is Burned When Flant of Rio Grande Company Burns
During Night.

One carload of broom bandles and a like amount of broom corn was lost in the fire which practically destroyed the factory of the Rio Grande Broom company, corner of Siath and Park, at 7 oclock Monday night. The loss of the material, together with the damages done by the fire to the machinery, is estimated at \$1500.

The factory was located on a rail-road siding. While the origin is unknown, about 15 minutes before the blaze was discovered, it is said that a switch engine passed the place, and it is believed that sparks from the engine might have ignited the building in which the raw material was housed. Will & Edwards, manager of the company, stated that the contents were poorly protected, and no blame attached to anyone for the fire. On account of the office of the company at 20s North Stanton street. Because of this, only raw material was lost in the fire. No insurance was carried either on the building or material. The factory had been established at the Park street location for about two years.

Mr. Edwards stated that the coreted a new on one of which would be erected a new
